# Who We Are...

Intercultural awareness isn't just for academics anymore — it's for everyone. If you're doing business in the Gulf or just on vacation, Embrace Arabia is a team of professional consultants. We have made it our mission to reach out to visitors and give them the inside information on Emirati customs and traditions.

Experience the region's rich heritage from a local perspective with one of our excursions. An Embrace Arabia tour isn't just sightseeing, it's a journey.

- Customize your excursion, depending on your group's needs. Whether you have half a day or a full one, whether you want to see historic sights or modern ones, we will plan a trip to maximize your enjoyment.
- Experience local landmarks such as Sheikh Zayed Grand Mosque and Heritage Village with one of our local guides. Learn fascinating cultural and religious knowledge that will make your trip to Arabia memorable.
- Moving from another country? Try our Relocation tour, which will help you avoid culture shock and familiarize you with how things work here.
